Plant Ecology 1998-2007, *

Plant Science, 2007-

Rangeland Resources, 1998-2007*

Soil Science, 2007-

* In Québec, under legislation, academic qualifications for acceptance into the profession are judged by specific numbers of credits for each discipline. We refer to this as Equivalency Requirements.

The programs marked with an asterix (*) did not have sufficient credits in all the discipline areas and, as such, OAQ will not accept graduates from them as having the academic requirements for acceptance into the profession.

Graduates from these programs can still apply for acceptance into the profession in Québec and will be judged on a case by case basis which takes into consideration elective courses, background, additional education and experience.
