

Presentation: Invited Speaker

November 6, 8:30am – 9:15am

Dr. Parvin Mousavi, Director of the Medical Informatics Laboratory and Professor at the School of Computing at Queen's University.

Dr. Mousavi received her M.Sc. and D.I.C. degrees in engineering and physical sciences in medicine from the Imperial College of Science, Technology and Medicine, London, U.K., and her Ph.D. degree in electrical and computer engineering from The University of British Columbia. Her research focuses on computer-assisted interventions and diagnosis, particularly the application of machine learning approaches to medical image processing, and to integration of multi-modality, multi-resolution medical data.

Dr. Mousavi will discuss the impact of AI on our society and its possible impacts on our sector. It is important for the Agri-Food sector to take into account societal impacts and acceptance of AI & Robotics as we increase our embrace of these new technologies.
