

Molly Gallant
Program Manager
Bioenterprise Corporation

As Program Manager, Molly supports and manages various aspects of Bioenterprise programming across Canada such as the SmartGrowth (ON), GreenShoots (NS), and Agtech Acceleration (QC) programs. This includes program development and delivery, outcomes reporting, business development, and maintaining the Bioenterprise global network.

Prior to joining Bioenterprise, Molly worked for several years at the University of Guelph planning, implementing, and evaluating multi-disciplinary research projects within the agri-food sector. Molly's research interests range to reflect the complex nature of food and she has worked on projects pertaining to food waste, food literacy, sustainability and workplace health and wellness. Molly is a graduate of the M.Sc. program in Human Health and Nutritional Sciences at the University of Guelph with a focus on people and project management, regulatory affairs, and health marketing.
