

### Rita Sterne, PhD

Rita Sterne is Project Manager at the Greenhouse Technology Network (GTN), a group of Research and Innovation Centres led by Niagara College that are “Growing Innovation for Ontario’s Greenhouse Industry”. In this role, Rita connects small and medium-sized Ontario businesses facing greenhouse-related technology challenges with Research Centre experts, facilities, and project funding from FedDev Ontario. Rita earned her PhD (Mgmt) from the University of Guelph and completed postdoctoral research focused on the value created through the adoption of robotics across Ontario’s greenhouse industry.
